

Environmental and Water Resources Engineering, and the Center for Water and the Environment Seminar Series Presents: Thursday, February 6th 2025, 3:30-4:30pm, ECJ 1.324

Zoom Link: <https://utexas.zoom.us/j/94105241294>

CV/Resume Workshop

Loren Cressler

*Ph.D. in English at UT Austin
Assistant Director of Professional Development
The Office of Career & Life Design, The Graduate School*

Abstract

Join us to learn how to create a resume and Curriculum Vitae (CV) that highlight your graduate experience and skills and impress your prospective employer. Resumes demonstrate your fit for a job and increase your chances of securing an interview. The CV is a document organized around academic experience, typically research, teaching and service. You might be asked to submit a CV for applications for graduate programs, fellowships, faculty positions, research scientist positions and teaching positions. The CV is a document that will grow with you as you progress through your program.

For the seminar, it is advised that you bring a digital or print copy of your resume/CV to make the workshop more beneficial, but you do not need to have a current resume/CV to attend.

Background

Loren Cressler is the Assistant Director of Professional Development in the Office of Career and Life Design. Since completing his Ph.D. in English at UT Austin, Loren has worked as a writing advisor for medical school and residency applicants with an ed-tech startup and taught literature and writing at Seattle University. He also worked as an in-house recruiter for both technical and non-technical positions at Google Cloud.
