

Environmental and Water Resources Engineering Seminar Series Presents:

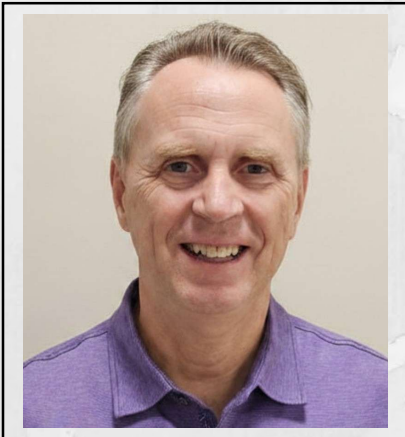

Thursday, October 8th 2026, 3:30-4:30pm ECJ, 1.324

Zoom Link: <https://utexas.zoom.us/j/84804724445>

Career in Industry and Beyond: An Alumni's Experience

Introduction

Henry Goyette, P.E., will use his career in environmental engineering to provide 27 powerful tips on preparing for and implementing your own successful career. Mr. Goyette is a 1984 graduate of the Environmental Health Engineering program at UT Austin. He started with IBM but learned that industry was not the best for him, leading to a much more enjoyable role as a consultant with Environmental Resources Management (ERM). Besides tips on finding and succeeding at job assignments, he will illustrate ways to succeed financially and perhaps retire early, as he did.

Background

Henry Goyette, P.E., is a 1984 graduate of the Environmental Health Engineering masters program at the University of Texas at Austin (UT). The engineering degree received from UT allowed him to have a successful career in environmental consulting with IBM and Environmental Resources Management (ERM) and early retirement in 2011. He has recently returned to the Austin area where he provides mentoring and research advice to CAEE and EWRE students and professors.
